Tailored Resume

Sage Raflik

Full-stack Software Developer | AWS Specialist | raflik.sage@gmail.com | (707) 362 - 5705 | github.com/neonfuz | Milwaukee, WI

Summary

Experienced Full-stack software developer with a strong background in various technologies including React, Angular, Node, Express, MongoDB and Docker. Proven record of implementing robust solutions in fast-paced environments. Seeking to leverage my technical skills and passion for AWS to contribute to the AWS Marketplace team. Committed to building quality software and achieving operational excellence.

Skills

Full-stack development, AWS, Docker, Software Development, React, MongoDB, Node, Express, Angular, Design and implementation of web services and protocols, Distributed systems architectures, Asynchronous workflow systems

Experience

Full Stack Developer | Geno.Me | Next.js, React, MongoDB, Express, Node | Nov 2022 - Feb 2025
- Lead React developer for a biomedical technology startup, primarily responsible for the frontend application.
- Designed and implemented numerous features, optimizing application startup and improving PR

workflow.

- Implemented automation of medical system integration using browser automation, saving significant testing team time.

- Mentored a new developer, who started contributing to the codebase within the first week.

Lead Full-Stack Developer | Warhog Financials | MongoDB, Express, Angular, Node | 2015 - 2018, 2019 - 2022

- Led the full-stack development for web-based accounting software using AngularJS 1.x and MongoDB.

- Designed and implemented new features, contributing to the overall efficiency of the software.

- Successfully migrated monolithic application from AWS Ubuntu 16.04 to a reproducible Docker container.

Freelance Development | React, Gatsby, JAM stack, Netlify, jQuery | 2016 - 2021

- Worked directly with clients to create websites for small businesses, understanding core business concerns and choosing appropriate technologies.

- Optimized SEO to reach top Google results for key searches.

Education

Milwaukee Area Technical College | Video Game Development | 2014-2016

- Learned Unity3D, C# development, and practices like code testing, Agile, Scrum, and Kanban.

- Experienced working collaboratively with 40+ people on a single project.
